Greetings from Shell Recruitment,

Shell is a company that goes beyond providing energy for the world. It pushes the limit by searching for and creating sustainable sources of energy, and by giving back to the communities it serves and works with. The heart of the company is its people: individuals who have their own goals and dreams. With Shell, these individuals have gone beyond their shell – to learn new insights about themselves while receiving new opportunities that has helped them achieve their personal aspirations.

We invite you to the Shell Career Talk to better understand Shell and its businesses, to learn about our Graduate Programme and the Shell Assessed Internship, and to dialogue with seniors currently in the Shell Graduate Programme.

Please take a few minutes to pre-register and tell us a little bit about yourself.

We look forward to meeting you!

Kind regards,

Shell Recruitment

Let’s deliver better energy solutions together.
