Our wide-ranging programmes such as the Student Exchange Programme (SEP), International Summer/Winter Programmes (i-SP), International Research Attachment Programmes (i-RAP), Study Trips for Engagement and EnRichment (STEER), provide the opportunity for you to experience student life in a foreign country, pick up a new language, experience different cultures, overcome novel challenges, make new friends, and ultimately become global citizens!

Peruse these pages to find out where you can go, what you can do, and how you can make informed choices regarding your study abroad options!
STUDENT EXCHANGE PROGRAMME (SEP)

Stand out as a global citizen and be a future-ready graduate by embarking on an SEP, the longest-running and largest student mobility programme at NUS!

SEP is an opportunity for students to spend one or two semesters studying at a partner university earning credits towards their NUS degree, while continuing to pay NUS tuition fees. SEP is a chance for students to experience a different academic culture, live in a foreign country and possibly learn a new language!

Students can choose from more than 300 partner universities from across the world!
ELIGIBILITY & APPLICATION PROCESS

ALL FULL-TIME NUS UNDERGRADUATES ARE ELIGIBLE FOR SEP, IF THEY:

- complete at least two graded semesters of study at NUS.
- attain a Cumulative Average Point (CAP) of at least 3.0 on the 5-point scale, and no ‘C’ grade (grade point of 2.0) in any module (at the discretion of Faculty/Department).
- possess adequate financial resources to support living expenses throughout the duration of SEP (approximately S$5,000 – S$15,000 per semester, depending on the cost of living in the SEP destination).
- have a clean disciplinary record and can be a strong ambassador for NUS and Singapore.

STUDENTS ARE NOT ELIGIBLE IF THEY ARE:

- scheduled for their final year projects of internships/industrial attachments.
- in their final semester of study.
- receiving certain scholarships with restrictions on overseas study (at the discretion of Faculty/Department/host university).

HOW TO APPLY

- Plan for SEP as early as you can. Check GRO’s website, reserve your elective modules to be as flexible as possible in your study plan for your SEP semester(s), research partner universities and work out a budget.
- Apply online during the application period which generally runs between September to April (actual dates differ depending on your Faculty). Please check GRO’s website for more details.
- Contact your Faculty’s SEP coordinator(s) for queries on SEP application dates, eligibility requirements, module mapping, credit transfers, withdrawals and application status.

INTERNATIONAL SUMMER / WINTER PROGRAMMES (i-SP)

NUS students can participate in i-SPs offered by partner universities and global university networks which NUS is a member of.

These i-SPs allow students to explore and cultivate a deeper appreciation of the culture and lifestyle of their host countries through opportunities for personal development and independent travel. Some i-SPs also allow students to explore non-traditional countries. These programmes are generally held during the NUS vacation period between May and August (summer), and December and January (winter).

STUDY TRIPS FOR ENGAGEMENT AND ENRICHMENT (STEER)

The NUS Study Trips for Engagement and EnRichment (STEER) are programmes designed to familiarise students with the diverse socio-cultural-economic environment of new and fast-evolving regions through a mix of classroom-based learning and experiential site visits. Inaugurated in December 2010, the STEER programmes have expanded to many countries in Asia, Africa, Europe, the Middle East and Latin America.

NUS STEER programmes have thematic curricula that help our undergraduates break existing mindsets about these emerging regions through participation in an immersive educational and cultural experience.

STEER destinations: Please check the GRO website for updated information: www.nus.edu.sg/gro/

• Applications typically open from January to May and from May to September for STEER programmes held between May and July and between December and January, respectively. Students should look out for announcements from their Faculties, School or the GRO website www.nus.edu.sg/gro/

The Sino-Singapore Undergraduate Exchange (SSUE) Programme is a prestigious programme spearheaded by the respective Ministries of Education (MOE) of China and Singapore. It is a Tertiary Exchange Programme and was first initiated in 2002 to provide a platform for cross-cultural exchange between university students from both countries. The programme will enhance Singaporean students’ understanding of China and its economic potential. Similarly, students from China are exposed to various aspects of Singapore life, education and culture. The programme consists of two legs – the first in May (China) and the second in July (Singapore).

"Through the lectures, campus tour and visits to various places of interest, the appreciation for China as a country where tradition meets modernity has deepened. More than the knowledge gained, the most precious takeaway from the programme would be the people, especially fellow schoolmates who were once strangers but have become friends."

FINANCING YOUR INTERNATIONAL PROGRAMMES

FINANCIAL AID

FINANCING YOUR SEP

SEP is a great opportunity for students to experience studying in an overseas university without worrying about additional tuition fees of overseas partner institutions. During SEP, students continue to pay NUS tuition fees, but apart from this, students must ensure that they have the financial means for other expenses like airfare and living costs during their SEP abroad. Students should consider the affordability of various SEP destinations when planning their exchange semester(s), as the cost of living varies for different destinations.

To help students alleviate the financial burden of participating in SEP, a number of financial assistance schemes are available for students to apply to.
