

PROFESSIONAL PROFILE : MR. STEVEN KOH

Advanced Cert. in Training & Assessment, WDA
Graduate Certificate in Management Consultancy, IMC Singapore
Master of Business. RMIT University
Bachelor of Science (Computer Science), NUS

Steven Koh is a motivational speaker, coach, mentor, trainer and entrepreneur. He is one of the few professionals who possesses over 12 years of business management, coaching, training delivery, project management, curriculum design and human resource development experience. Steven is dynamic, passionate and innovative about his work and his life.

In 1996, he founded Trillion Training (S) Pte Ltd, an established training provider specialising in equipping managers and executives with excellent attitudes, skills and knowledge to excel in the highly competitive global economy. Under his leadership, Trillion Training has over the last 10 years, creatively developed many useful training programmes and solutions. Today, the company is highly-regarded by many clients and trainers for her training quality and service.

With a passion to share his experience, Steven is always keen to help his peers. At the moment, he is mentoring a few CEOs and senior managers in their entrepreneurial effort and career management. Through a step-by-step approach, he enjoys guiding and seeing his mentees progress. In addition, Steven also conducts training in management and leadership skills for managers. His sessions are motivating and inspiring.

Besides being a mentor, Steven also leads and manages a team of trainers and consultants. He has coached many trainers and managers in upgrading their managerial and training skills. He has also developed over 50 training programmes. Over 50 thousands students, executives and managers have attended and benefitted from his programmes. In project management, Steven has managed and implemented many large-scale training projects across functions and various industries in service, manufacturing and the public sectors. He has completed these projects well and earned the compliments from everyone involved for his systematic and detailed approach.

Steven obtained his first degree in Computer Science and Information Technology from the National University of Singapore. He has also obtained the Master of Business from RMIT University, Australia. Being a firm believer of life-long learning, he is the first batch of training professional who obtained the Advanced Certificate of Training & Assessment awarded by WDA in 2004. Steven is always keen to learn and upgrade himself professionally.

On the personal front, Steven supports volunteerism. He was a volunteer trainer for the National Volunteer Centre for SARS prevention. He also supports environment friendly and recycling programmes. On the whole, Steven is business-minded and very willing to invest time to value-add to others and their lives.
