Financial Aid

A university education can supercharge your future. An investment that will pay for itself many times over – if you make it work. The good news is this is definitely an investment within your means. You just need to be bold to seize the opportunities.

For starters, get a quick grasp of the financing needed and your expected expenses below.

**NUS Tuition Fee and MOE Tuition Grant**

NUS fees are kept competitive against leading global universities, and are highly subsidised by the government. The Singapore Ministry of Education (MOE) offers a tuition grant to all Singapore Citizens, Permanent Residents and most international students. Depending on your nationality and course of study, the remaining fee payable ranges from about S$8,200 to S$60,000 per annum after the grant.

The MOE Tuition Grant is bond-free for Singapore Citizens. Non-Singapore Citizens will need to serve a three-year service obligation with a Singapore entity upon completion of the undergraduate degree. All Medicine and Dentistry students must fulfil a four to six-year bond with the Singapore Ministry of Health, regardless of nationality.

**Estimated Living Expenses**

You will need about S$6,000 for living expenses, and S$4,000 for accommodation expenses per year as a full-time undergraduate student. This is a conservative estimate, which may vary according to lifestyles.

Available Financial Aid Schemes

Financial support is at hand. A wide range of NUS-administered financial aid schemes is available – including loans, bursaries and work-study opportunities (some can even help cover hostel and residential programme fees). Or you can also consider externally administered options offered by MOE and other organisations.
