While information on this website will give you an idea of the various support available, it is important that you take ownership of your learning journey.

You can do so by sharing with us the support that you will need to enable you to transit to NUS smoothly.

**Guided Orientation**
Students with mobility difficulties may find it challenging to get around in a new environment.

As the campus sits on a hilly terrain, students may find it useful to receive a guided tour of the wheelchair accessible routes within and around their respective faculties.

Students with visual impairment will benefit from having a buddy to assist with mobility to and from classes, the canteens, libraries and other common facilities.

If you would like to request for assistance with mobility around the campus, contact us prior to the start of the semester, to facilitate timeliness of these arrangements.

---

**Transition from College/ Polytechnic to NUS**

Need some pointers to navigate your student journey in NUS?

Knowing your options and where to obtain the required support and services will ease your transition blues.
Van Services by OCA
The Office of Campus Amenities (OCA) provides this specialised transport service for students with documented temporary or permanent disabilities.

This complimentary service is strictly for transport to and from classes and is subjected to vehicle availability.

Get in touch with us if you require this service.

On-Campus Accommodation
The Office of Student Affairs looks into the allocation of accommodation in the various NUS student hostels. Visit Campus Living to learn more about the options available.

For specific accommodation needs, let us know what they may be so that we can work with relevant colleagues to make living on campus an inclusive and meaningful one for you.

Internship Opportunities
SG ENABLE
The Office of Student Affairs works in partnership with SG Enable to connect students with opportunities, with inclusive employers.

Look out for the call for application in February/March for internship placement opportunities during the May to June semester break.

Transportation
Internal Shuttle BUS (ISB) Service
Travelling within campus is possible with the university’s network of wheelchair accessible ISB services. Click here to find out more.
Scholarship/Bursary Opportunities
Deserving students with special needs can avail themselves to the following scholarship/bursary opportunities and more.

Asia Pacific Breweries Foundation Scholarship for Persons with Disabilities
This multi-disciplinary scholarship recognises students with disabilities who have achieved excellent academic results.

Find out more here.

Microsoft YouthSpark Scholarship
Have a passion for creativity, higher learning and innovation? Microsoft YouthSpark Scholarship nurtures and develops students with excellent academic credentials and strong leadership potential in this domain.

Find out more here.

Outstanding Deaf Student Award
The Singapore Association for the Deaf annually confers the Outstanding Deaf Student Award to recognise the achievements of Deaf* individuals in academic, vocational and technical education.

Find out more here.

*Individuals with different degrees of hearing impairment.

SPD Education Programme Bursary Award
The Serving Persons with Disabilities (SPD) Education Programme Bursary Award is offered to students from low-income families. Students with a physical disability or have parent(s) with physical disabilities may apply. The quantum of the grant provides up to $6,000 per year for university education.

Find out more here.

SPD Youth Aspiration Award
To encourage youths with disabilities to pursue their interests in visual or performing arts, sports or community service, SPD offers a grant of $5,000 to recipients of the SPD Youth Aspiration Award every year.

Find out more here.
Special Education Needs (SEN)

The Special Education Needs (SEN) Fund provides financial support to enable students to purchase Assistive Technology (AT) devices that can help to meet their learning needs at NUS.

Eligibility Criteria

1. Applicant must be a Full time student or has a confirmed place in the enrolment. Year 1 students will need to submit the letter of acceptance for enrolment in the new academic year.

2. Applicant will need to submit supporting documents of his/her condition endorsed by medical professionals.

Click here to download the application form.
