

# Student Leader Module Series

## Online Module & Case Study Workshop

The **Student Leader Module Series** is developed as part of training for student leaders to understand financial and event planning guidelines.

The module comprises:

- Financial Literacy
- Financial Policies and Procedures for NUSSU and Clubs
- Student Leader Handbook Guidelines
- Guidelines on Orientation Activities

There are two phases – **completing an online module** and **attending a case study workshop**.

It is mandatory for the key appointment holders and project directors/treasurers to complete the relevant online module and assessments on IVLE before they proceed with their event/activity.

Case study workshops, while not mandatory, are strongly recommended. Student leaders will have an opportunity to better understand the guidelines through group discussion and application.
