School of Computing	Computer Science	CS1010E	Programming Methodology	S1	5	3	3	0	0	0	0	0

Remarks:

1. Vacancy, Demand and Successful/Unsuccessful Allocations data in this report display the course classes, selected under main list in this current round, unless otherwise stated.
2. The same course may be available to different students at different "Select Courses" rounds. The general guide to check if the course is available in a particular round is as follows:
   - "Select Courses" Round 1 is a protected round for programme requirements, restricted/direct minor requirements and CELC English requirements.
   - "Select Courses" Round 2 onwards include courses selection for University-level requirement and Unrestricted Elective requirements.
3. The "Vacancy" column displays the quota (by student's career) as at running the Select Courses allocation for this current round. It is subject to changes, such as courses allocated by admins before running allocation process for deserving students. All the available vacancies of the course-class will be merged when processing course allocation for Select Courses (Round 3) and Submit Course Requests. It will be updated with "-" when a course class has reached to its maximum capacity. In such situation, students are not allowed to select classes or submit appeals.
4. The "Others" column includes reasons such as class has already been allocated earlier, class is being cancelled or student's programme status is no longer active.
5. Please note that the total quota for most Law elective courses (across all Academic Careers) is 50.
