

19 June 2020

Dear alumnus,

I am sure most, if not all, of us received the news that Singapore will start Phase 2 today with wide opened arms. As we welcome Phase 2, allow me to share the approach and measures that we will continue to adopt on campus to ensure the safety and well-being of everyone. Hopefully this will help us and Singapore move to Phase 3 earlier.

We urge all alumni to continue to engage and transact with NUS virtually in the main. If you need to come to campus, we request that you make a prior appointment with the faculty or office that you intend to visit. The zoning arrangements which I shared with you in my letter of 4 June 2020 remain in place and we will be most grateful if you will work with us to observe it. The diagram below shows how the five (5) zones are organised:

Zoning on campus

Version 2 | 30 May 2020

Shaw Foundation Alumni House, which is in Zone C, will re-open today. If you are planning to visit us, please make a prior appointment with us at +65 6516 5775, or use our self-serve form [here](#). To ensure the safety and well-being of everyone, please help us to observe the following measures when you visit:

- Use the SafeEntry App when you arrive and leave;
- Activate the TraceTogether App when you are on campus;
- Temperature screening will be conducted upon your arrival;
- Wear your face mask at all times;
- Observe the safe distancing guideline of at least 1.5m from the next person.

The ongoing pandemic has sharply disrupted all our lives, both personally and professionally. My colleagues and I, here in the Office of Alumni Relations, have had to quickly turn around and move all our earlier planned programmes and activities online. We are keenly aware that many, many things have changed. To help us better understand how these changes have affected you, we have prepared a short survey. We would be most grateful if you could spare a few minutes to help us complete this survey. Your feedback and inputs will help us better understand what needs might have changed and in so doing, help us make adjustments to our plans and programmes to better meet your evolving needs. The survey can be found [here](#).

Once again, I look forward to saying hello to you in person as soon as possible. Until then, my colleagues and I continue to pray that you, your family, and your loved ones remain well, safe and in good spirits.

Kind regards,

Mr Bernard Toh (Architecture '84)
Director, NUS Alumni Relationsp
