

Are you passionate about the Agrifood / Agritech sector?

Temasek is proud to participate in a virtual career talk webinar organized by NUS in collaboration with the National Research Foundation (NRF), open to postgraduates from all of the local Universities. Join us and learn more about our Agriculture and Life Sciences investment business sector and how we invest in companies using financial and deep domain capabilities, as well as leveraging our network and eco-system to assist our partners and portfolio companies in further developing the Agrifood eco-system. You will also hear more from our representatives on how they transition from a non-finance background and into a finance related role.

Virtual Career Talk Webinar Details

Please indicate your interest by submitting your CV in the registration link [here](#). We'll send you an invite if you are selected. Limited slots available so please sign up early!

- Date: Mon, 14 Sept: 12pm – 130pm

Temasek is also currently accepting applications for our **2021 Campus Associate Internship programme**. Visit our [website](#) (search for Associate Internship) to learn more. We welcome applicants from all backgrounds (including STEM*) to apply. Additional financial training will be provided if you are from a non business background.
