EXPANDING CAREER HORIZONS
9 OCTOBER, 10AM – 5PM

ExxonMobil (India)

ExxonMobil has been powering India's growth for three decades. The company brought the first supplies of liquefied natural gas (LNG) to India in the early 2000s and is now a major LNG supplier to the country, helping to advance its transition to a gas-based economy.

ExxonMobil's cutting-edge product solutions such as Mobil lubricants are driving productivity and energy efficiency in India's automotive and industrial sectors, helping individual consumers and businesses achieve more with less. The company's chemical products are enabling Indian manufacturers to make high-quality products and deliver sustainability benefits across sectors.
