

CFG1004 Enrolment FAQs

1. Can I enrol in CFG1004 Financial Readiness for Young Professional if I am going on SEP or Internship overseas?

You cannot enrol in the course as being overseas usually restricts you from using Canvas which is how the course will be delivered.

2. Can I take the courses whilst I am on an internship / industry attachment?

As a course host, we do not put any restriction on students who are doing an internship / industry attachment as long as they have the approval to do so from their faculty. Please seek your faculty's approval to enrol in the course. If your faculty requires approval from CFG to enrol in this course, please write to us at: financialreadiness@nus.edu.sg

3. What is the difference between CFG1004 and the post-graduate version of the courses?

In the postgraduate version of the courses, no units are awarded for successful completion of the courses and there are no compulsory assignments.

4. I have registered for the Postgraduate version of the course, when will I be able to access the course contents on Canvas?

You will be able to access the course contents on Canvas from Week 5 onwards.

For all other enquiries regarding this course, please contact us at financialreadiness@nus.edu.sg
