
NUSS-NUS Mentorship Programme AY2026/27

Programme Details

An initiative brought to you by the Alumni Development (ADSC) Sub-Committee, in collaboration with NUS Centre for Future-ready Graduate.

Background

Launched in AY2012/2013, the NUSS-NUS Mentorship Programme, previously known as the NUSS-UTown Mentorship Programme and thereafter NUSS-Residential Colleges Mentorship Programme, is a joint collaboration between The National University of Singapore Society (NUSS) and National University of Singapore (NUS).

The programme is currently open to all NUS undergraduates who are matriculated in 2025 and before (Year 2 and above students).

Objectives

The programme is developed to:

- Establish a platform for students to share and learn from mentors for their holistic development;
- Facilitate smoother university-to-work transition for students in areas of communication and interpersonal skills by providing them with professional and industry guidance; and
- Promote networking opportunities between students and the graduate communities.

Period of Commitment

The programme will last for one year from October 2026 to September 2027, during which mentors are expected, as a general guideline, to commit to a minimum of four meetings (e.g. face-to-face discussions, tea/lunch appointments, office visits etc). These could take place on campus or off campus, with one of the meetings to take place in NUSS.

Meetings can include advice on matters relating to their personal development, specific job sectors or industries, planning for career progression, how to achieve work-life balance etc. The programme is less formally structured with no explicit parameters set to better cater to the different types of mentors and mentees.

Programme Structure

- A briefing session will be held prior to the Welcome Dinner to prepare mentors and mentees for the mentorship programme.
- The programme will begin after both mentors and mentees have confirmed their match post the Welcome Dinner and will end with an Appreciation Dinner.
- A mid-year gathering will be held in the middle of the programme to allow for networking opportunities and information exchange between past and current batches of mentors and mentees.
 - Other mentorship activities can be introduced at various points of the programme. NUSS and NUS Centre for Future-ready Graduates (CFG) are free to include and engage the participants of the programme in various events during the mentorship period as well.
- Mentors will have the option to provide a testimonial for their mentees at the end of the programme.
- Feedback will be gathered from mentors and mentees periodically throughout the programme.

Timeline for Mentors

3th July 2026	Mentorship application closes
End July – Early August 2026	Notification of selection outcome
Late August 2026	Briefing session for selected mentors
September/October 2026***	Welcome Dinner & Matching Session
Mid to End October 2026	Notification of match and confirmation
End October 2026	Start of Mentorship
May 2027	Mid-Year Gathering
September 2027	End of Mentorship
October 2027	Appreciation Dinner

*** *subject to changes*

Criteria for Mentors

We are looking for mentors who are keen to guide NUS students and advise them about life after graduation. Mentors should be eager to engage young people in assisting in their holistic development, exploring possible career opportunities, and be willing to share about their own life experiences in the working world.

The programme is open to all NUSS members with Active membership status. The selection criteria are as follows:

- NUSS Members who have been in the workforce for 10 years or more
- Altruistic and have a heartfelt commitment to work with individuals and/or teams
- Willingness to impart experiences, knowledge and skills
- Be receptive to mentoring students from diverse backgrounds

In AY2022/2023, we introduced **Associate Mentors** to the programme. The selection criteria are as follows:

- NUSS Members who have been in the workforce **more than 5 years but below 10 years of working experience** (does not include internship, job attachment).
- Altruistic and have a heartfelt commitment to work with individuals and/or teams
- Willingness to impart experiences, knowledge and skills
- Be receptive to mentoring students from diverse backgrounds

Mentor Boundaries

Mentors must maintain appropriate professional boundaries at all times. Personal or sensitive topics should only be discussed if initiated or clearly consented to by the mentee. Mentors must not engage in any activity that may cause physical or psychological harm, and must not record sessions without explicit permission.

Mentors are not permitted to provide psychological, medical, or legal advice, nor offer counselling beyond general career and life guidance.

The National University of Singapore Society (NUSS) and National University of Singapore (NUS) reserves the right to suspend or terminate a mentor's participation at its discretion in cases of safeguarding concerns, including PDPA breaches or reputational risk.

Criteria for Mentees

Students come from diverse disciplines and are exposed to multidisciplinary learning. As such, their interests could be fairly wide-ranging. Apart from gaining depth in their respective majors back at the home faculties, they are also trained in writing and critical thinking skills.

The selection criteria are as follows:

- Be keen to engage their mentors
- Be eager to keep an open mind about possible career options
- Priority will be given to those who are not away for more than two months during the mentorship period (e.g. due to Student Exchange Programme)

Endorsement of Mentors and Mentees

- Shortlisted mentors will be endorsed by the Society's Management Committee.
- Shortlisted mentees will be endorsed by the National University of Singapore (NUS).

Matching Process

- Mentors may state a preference for the kind of mentees they are keen to engage (e.g. in terms of number of preferred mentees, key area of interests, faculty etc.), which will be matched with mentees' interests and preferences as far as possible.
- Mentors will be matched to a maximum of two mentees each should no preferences on the number of mentees be stated.
- Mentees have the option of either:
 - i. choosing **two** mentors, one Associate mentor and one non-Associate mentor
 - ii. choosing **one** mentor, which the mentee can choose from the pool of non-Associate mentor
- To facilitate the matching process, the following information* will be shared with NUS for dissemination to interested students via email when the mentee recruitment process begins:
 - Degrees obtained
 - Areas of industry experience

- Company Name, Designation and general description
- Years of working experience
- Areas of expertise
- Short write-up of mentor
- Personal interests/Hobbies
- Short write-up on contributions to the programme
- Preferred mode(s) of engagement
- Preference for mentees (e.g. in terms of number of preferred mentees, key area of interests, faculty etc.)

*Selected information may be included in the publicity material to students during recruitment process. No names or identifiable information will be included.

Names will only be released to endorsed mentees prior to the Welcome Dinner to facilitate the networking process.

- A Welcome Dinner will be held for shortlisted mentors and mentees. The profiles of the mentors will be sent to mentees for information. Mentees will choose and rank their top five preferred mentors post-dinner. Both NUSS and NUS CFG will coordinate the match thereafter, based on mentee's preferences first, follow by mentor's preferences, the relevance of the mentor's expertise, and the course in which the mentee is undertaking.
- Once the match is completed, mentors and mentees will be informed of the outcome via email.
- Requests for a different match should preferably be made after the first formal meeting between the mentor and mentee. Mentors and mentees are encouraged to share with each other the goals of the mentoring relationship at the first meeting.
- As a best match practice is adopted, not all mentors and mentees will be successfully matched.

Extension of Mentorship Period

- At the end of the programme, mentors who would like to continue mentoring their mentees are recommended to make private arrangements separately.
- Mentors who are keen to engage new mentees in the next academic year for more students to be exposed to the programme are welcome to do so by sending in their applications in the next recruitment window.

Mentor's Resignation from Programme

- Mentors should inform the Secretariat on their resignation from the programme one month in advance. This would cater time for the Committee to assign another mentor for the mentee. The mentor assigned would be from the existing pool of mentors.
- Secretariat will inform the mentee of the resignation and the mentorship shall discontinue if both parties are agreeable.
- However, if the mentor ceases to be a member of the Society for any reason whatsoever, the mentorship shall discontinue and the Committee will assign another mentor for the mentee.

Mentee's Resignation from Programme

- Secretariat will inform the mentor of the resignation and the mentorship shall discontinue if both parties are agreeable.

Registration

- Kindly register online at <https://www.gevme.com/nuss-nus-mentorship-programme-ay-20262027-78031643> apply as a mentor.
- Please be informed that the application form will be deemed incomplete if any of the sections are not filled and incomplete applications shall be rejected.
- Kindly note that there is a selection process and applicants will be notified via email in early August 2026 of the outcome.
