What is AmplifyME Pathways?	Pathways is a structured platform that gives students hands-on experience of careers in markets, banking, and quant. Through live simulations, on-demand learning, and expert-led career support, it connects academic study with real industry practice. With a clear journey from foundations to advanced challenges, Pathways helps students build confidence step by step, develop commercial acumen, and open doors to the industry.	
How does AmplifyME Pathways work?	With hands- on simulations, on-demand learning, and expert masterclasses across markets, banking, and quant, students bring theory to life and build the confidence employers look for. Simulations increase in difficulty over time, so students develop step by step, practise repeatedly, and progress with confidence. Top performers can even be referred to our partner firms for further training and fast-track opportunities - giving universities a direct route to industry success stories.	

List of FAQs	Q. How many events in the one-pager can I sign up for?	Answer: There is no limit, you can sign up for as many as you wish. <u>Please make sure to register with your university email address.</u>
	Q. Do I need relevant knowledge before attending?	Answer: Absolutely not, students from all disciplines are welcome. Each program has been designed to be beginner-friendly and you will also have access to detailed pre-learning material.
	Q. I'm not sure which pathway I'm interested in, how should I approach this?	Answer: We'd recommend attending one session of each pathway first to explore and then focus on attending more sessions of the ones you are interested in the most.
Support & Troubleshooting	If you encounter any issues with registration or using the platform, please contact pathways-support@amplifyme.com .
