

## **CITATION FOR ASSOCIATE PROFESSOR MARLEEN DIELEMAN OUTSTANDING EDUCATOR AWARD**

Associate Professor Marleen Dieleman has made exceptional contributions to NUS.

Her students consider her teaching to be memorable and inspiring; they praise her attention to individual learning, and her willingness to innovate. Marleen incorporates best practices, in a way that fits her style. She innovates and now includes games and story-telling in her teaching. She has been an effective educator at the undergraduate, graduate and executive levels, and has taught effectively in many countries.

Marleen also played an influential role in education leadership. She has developed a portfolio of teaching cases set in Singapore and Asia, that are used by educators all over the world. She serves as an education leader at NUS Business School and leads initiatives to share best practices in teaching and teaching scholarship among colleagues in NUS, as well as fellow academics in international organisations.

Marleen has consistently raised her standards over the years and sets a tremendous example. We are pleased and humbled to honour Associate Professor Marleen Dieleman's significant contributions to education with the Outstanding Educator Award.
