National University of Singapore Students’ Union (NUSSU) is a unique student-run institution that is autonomous from the University Administration primarily in terms of operations and budget. NUSSU constantly strives to amplify the voices of the students and at the same time act as a bridge between the students and the University Administration to promote students’ interest and welfare in NUS. It hopes to be an approachable Union that can be useful to NUS students during their time in University.

Every full-time undergraduate at NUS is a Union (NUSSU) member by default and everyone is entitled to voice their opinions about any university-related matters, especially in situations where they find that their welfare is being compromised. The avenue for them to do this is through NUSSU feedback channels that are readily available and accessible on-campus, as well as online. Undergraduates can also choose to approach members of the NUSSU Council directly in person – All representatives are prepared to listen and work to improve the lives of students on campus.

EUSOFF HALL

Eusoff Hall has long been reputed for its dynamic and vibrant culture. Although previously only known as one of the "sports halls", Eusoff Hall has now made a name for itself not just in sports, but also in culture, media and voluntary service. From our performance in the Inter Hall Games to the Dance Production and EusoffWorks Production, Eusoff Hall strives to uphold the highest standards in all areas. But life in Eusoff Hall is more than just achievements - it's about the people. The friendships formed from living together, sharing and working together here will last a lifetime. Perhaps this is one of the manifestations of the hall motto - Excellence and Harmony.

The University Scholars Programme (USP) is a multi-disciplinary programme at NUS that fosters learning across a variety of domains to shape independent, adaptable thinkers and doers who will make an impact in the world. Joining USP means being a part of a community that is curious, critical, courageous and engaged. In addition, you’ll get the opportunity to learn, work and live with these vibrant individuals at Cinnamon College.

Living on the Ridge in RVRC is an experience like no other Residential College. We embrace Singapore's historic kampung spirit in looks and feels. Each brick, all the flora and fauna on the edge of Kent Ridge Forest are special. We are diverse individuals, each with unique strengths and weaknesses, creating communities of belonging and working together to overcome challenges and celebrate life. In RVRC we play together and learn together, share meaningful moments, commemorate the more monumental events in our community and in each other's lives. We believe that each and everyone has the potential to be whoever we set our minds to be.
The College of Alice & Peter Tan (formerly Angsana College) is part of NUS University Town, NUS, where some 2,400 undergraduate students, 1,700 graduate students and 1,000 researchers work, live and learn in close proximity. As an extension of the Kent Ridge Campus, UTown offers undergraduates the opportunity to combine the vibrancy of campus living with an exciting multidisciplinary academic programme.

In addition to a curriculum that emphasizes breadth, critical thinking and an informed perspective of society, the College aspires to weave the themes of active citizenship and community engagement through its residential programme and student-led activities.

RC4 students will work towards holistic understanding of complex problems that matter to society and develop solutions employing a wide range of thinking skills. Their in-class learning will be augmented through participation in interest groups, special events featuring prominent personalities, debates, sports etc. There will be plenty of opportunities for leadership and enterprise in a vibrant and cohesive community.
Tembusu College is The Home of Possibilities.
