## A FOCAL POINT ON CAMPUS FOR INTERNATIONAL ACTIVITIES AND GLOBAL ENGAGEMENT

As part of the university-wide Strategic Plan, the University of Arizona is positioned as a premier destination for globally minded students, offering unparalleled opportunities to prepare them to embrace global challenges. The Global Center serves as a focal point on campus, providing a warm and welcoming environment for students from across the globe to gather, have fun, eat great food, and to collaborate and learn from one another. By providing our global student community with exceptional support, the UofA will become a national leader in global and study abroad experiences.

The new Global Center is the headquarters for various services related to international study, whether for students and faculty coming into the U.S., or for those leaving to study, research, or teach abroad. The Global Center brings these resources under one roof, creating a convenient, easy-to-navigate, and welcoming space—a centralized hub for international activities and global engagement for the university community.

The Global Center will be at the heart of a new International Village, envisioned as a vibrant living and learning community that will include internationally focused dorms, international dining options, indoor and outdoor spaces for events and activities, and the UofA Global offices. The International Village will bring students, faculty, staff, and the Tucson community together to engage in transformative global experiences and will be a focal point for global activities on campus.
