| 3 | Financial Aid Available Through NUS GRO | You should have enough monetary funds to last you throughout the whole i-SP. Your decision to go on i-SP should not be dependent upon the confirmation of a scholarship or bursary award. Please refer to the GRO website for more information on financial aid. |
### PROGRAMME DETAILS

<table>
<thead>
<tr>
<th>Academic Content</th>
<th>Programs on offer include:</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Deep Dive into Blockchain – Linking Economics, Technology and Law</strong>&lt;br&gt;For a full understanding of Blockchain, with all its implications and potential for application in practice, it is absolutely crucial to look at it from a multidisciplinary perspective. In this Summer School, students will understand the three key pillars of blockchain systems, namely the technology, the economics, and the legal aspects behind it. Building on this, they will then explore other fields of application, such as forensics and data analytics. This program is highly interactive, with hands-on practice sessions incorporating the most advanced and promising blockchain-based platforms.</td>
<td></td>
</tr>
<tr>
<td><strong>Finance for the Future: Investments, Sustainable Finance and FinTech</strong>&lt;br&gt;This Summer School will focus on the past, present, and future development of the Swiss financial system and wealth management in Switzerland. Students will enhance their knowledge in macroeconomics and finance. Furthermore, they will learn about the most recent and promising trends in FinTech and Sustainable Finance and will apply their gained knowledge in a portfolio management game. This program not only offers the unique opportunity to get insights by leading experts in academia and business, but also to explore Zurich – one of the most important financial centers in the world.</td>
<td></td>
</tr>
<tr>
<td><strong>International Sports Law: Legal Challenges in the Fight Against Doping (new!)</strong>&lt;br&gt;This Summer School offers unique insights into the legal context in which international sports organizations currently operate as well as into the limits to their autonomy in designing internal procedures. Participants will explore the relevance of the European Convention on Human Rights in the context of organized sport, for instance procedural guarantees or the prohibition of discrimination. Specific issues that will be addressed include the limits to disciplinary and investigative autonomy of sports organizations in internal disciplinary proceedings, e.g. relating to doping, and the role and limits of adjudication by arbitral tribunals and internal bodies of such organizations in general.</td>
<td></td>
</tr>
</tbody>
</table>

| Eligibility Requirements | NUS’ generic eligibility requirements apply, please see GRO website for details. |

<table>
<thead>
<tr>
<th>Application Procedure</th>
<th>You are REQUIRED TO apply via NUS’ EduRec-GE AND the host university’s website concurrently.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Please note that you must accept both NUS EduRec offer as well as the host university offer in order to confirm your participation in this programme.</td>
</tr>
</tbody>
</table>
| 7 | **Module Mapping** | Students interested in obtaining credit can start the module mapping process after you apply in EduRec and accept the offer for the programme. Module mapping request is subject to approval from the Faculties. [Click here](#) for a step-by-step guide on applying for module mapping.

Students may map up to a maximum of 10 MCs for each on-site Summer Programme and up to a maximum of 5 MCs for each Winter Programme. Module mapping will be subject to approval from the respective Faculties/Schools. |
| 8 | **Visa Application** | Students are reminded to apply for the relevant visa prior to departure. More information can be found on the website of the [Swiss embassy in Singapore](#).

Students are reminded to check for updates of the latest immigration policies via the website of the Embassy/Consulate and the information from the host university. |
| 9 | **Travel Advisories** | Visit the [MFA website](#) for travel advisories on various countries from the Singapore government. |
| 10 | **Student Insurance** | NUS students are covered under the NUS Students Travel Insurance scheme for official NUS trips. Please refer to [https://myportal.nus.edu.sg/studentportal/student-insurance/all/](https://myportal.nus.edu.sg/studentportal/student-insurance/all/) for details.

However, students are advised to read through and understand its policy (coverage) and to review whether the terms and conditions as well as the duration of coverage are sufficient to suit their needs and to cover their entire journey abroad. If necessary, students may consider topping up for international coverage of their own health insurance or taking out a suitable travel insurance for themselves.

If a proof of insurance (Insurance Cover for Official NUS Trips) is required at anytime, students may download the Certificate of Insurance at [https://myportal.nus.edu.sg/studentportal/student-insurance/all/](https://myportal.nus.edu.sg/studentportal/student-insurance/all/). |

UZH International Summer Schools

Finance for the Future

Investments, Sustainable Finance and FinTech

2 - 21 July 2023

Faculty of Business, Economics and Informatics in collaboration with Global Student Experience
Course Description
In this summer school, the fundamentals of wealth management and the latest developments in this area – Sustainable Finance and FinTech – will be presented. You will learn the theoretical basics of portfolio management and play a simulation in which you will manage two investment funds in a group.

Sustainable Finance has emerged as a key opportunity to deploy large amounts of capital for financial returns and positive social and environmental outcome. The remaining sessions are dedicated to FinTech. FinTech is the new technology and innovation that aims to compete with traditional financial methods in the delivery of financial services. To create sustainable value for the next generation, successful firms must seamlessly integrate financial and non-financial services into a digital ecosystem.

Participating in this summer school will not only allow you to learn theoretical aspects about finance, but also to interact with practitioners and experts from academia. A unique opportunity to expand your network! Furthermore, participants will experience Zurich as one of the world’s most attractive student cities.

Main Learnings
- Get to know the past, present and future development of the Swiss financial system and the wealth management in Switzerland.
- Enhance your knowledge in macroeconomics and finance (financial instruments & asset classes).
- Learn from scientists and people from the practice about the most recent and promising trends in FinTech and Sustainable Finance.
- Test and apply your gained knowledge in a portfolio management game.

Teaching and Learning Methods
- Live-sessions – Come to the lectures at the University of Zurich and interact with lecturers during live-sessions
- Q&A Sessions – Ask your questions and get answers from your teaching team at the UZH Department of Banking and Finance
- Group Work – Interact with international students, work together on your hands-on projects and improve your intercultural skills
- Game-based Learning – Apply the knowledge you gained within a digital simulation. Team spirit and fun will not be missing.

Scholarships
We offer generous discounts to students from UZH partner universities, including strategic partners and international networks.

State your interest in a scholarship in your motivation letter. Once we have received your application, we will notify you of any potential discounts available to you.

Fees
The regular fee for this Summer School is CHF 3,450.

The fee includes:
- Tuition and application fee
- Accommodation
- Final certificate and transcript
- Classroom teaching and selected online sessions
- An exciting social program that will foster your intercultural competence

The Hosting Institute
Department of Banking and Finance, UZH

Course Director
Prof. Dr. Marc Chesney

Course Manager
Dr. Benjamin Wilding, Anja Zgraggen, Stephanie Zgraggen

Language
English

Credits
6 ECTS

Target Audience
2nd and 3rd year Bachelor students and Master students (not with a major in Banking and Finance)
Application

Strong Bachelor students from all subject areas, who have completed their first year of study, are encouraged to apply. Further, the course is also suitable for Master students not studying in the field of Banking and Finance.

Please apply online on our registration form as soon as possible to avoid disappointment. We will carefully check your application and get back to you within seven days. For further information on the application process please visit www.summerschools.uzh.ch.

Deep Dive into Blockchain
Linking Economics, Technology and Law
2-21 July 2023
Course Description

This summer school programme will give you a complete immersion into the topic of blockchain from world-leading experts and practitioners in the field at Europe’s No. 1 university in Blockchain education (ranking by CoinDesk 2022 and 2021). Blockchain-based systems, with cryptocurrencies as the most prominent example, have disrupted and reshaped the way we think about digital finance and similar applications, such as supply chains. Blockchain and related technologies allow to store sequential, trustful information without enforced consensus by central authorities or trustees.

This intense three-week course aims to provide you with a critical understanding of blockchains and its application by introducing them from a multidisciplinary perspective. At the end of the course you will understand three key pillars of blockchain and distributed ledger technology systems, namely the technology, its economics and the legal/regulatory aspects behind them. Building on this, we will then explore other fields of application, such as forensics and data analytics. The course offers a chance to experience classes taught by different professors and lecturers from UZH and leading universities world-wide. It is also nurtured by the most prominent protocols and platforms in the space. The programme has consistently received excellent ratings for its highly interactive structure, hands-on practice sessions and for incorporating the most advanced and promising blockchain-based platforms.

Main Learnings

- Get to know how blockchain-based systems work
- Understand the economics incentives as the basis of blockchain-based systems
- Learn to critically assess the decisions taken when designing blockchain technologies
- Learn from experts in academia and industry
- Obtain hands-on experience in both established and advancing technologies from our high profile industry partners: Cardano, Hedera, BNB Chain, Ethereum Foundation, Polygon, and others!

Teaching and Learning Methods

- Live Sessions – Learn from at least two live sessions per day by lecturers from academia and selected speakers from industry
- Test your knowledge – Following the sessions, you will have an assignment (individual and group) to assess and deepen the knowledge
- Hands-on sessions – Interact with lecturers and benefit from their expertise
- Q&A sessions every day – Ask your questions to our teaching team at UZH
- Wrap-up – Get an interactive recap of the program at the end of each week
- Group work – Interact with other students and work together on your final project across disciplines
- Receive personalised mentoring for your final project

Fees

The regular fee for this Online Summer School is CHF 3’450.

The fee includes:

- Tuition and application fee
- Accommodation
- Final certificate and transcript
- Classroom teaching
- An exciting social program that will foster your intercultural competence

Scholarships

We offer generous discounts to students from UZH partner universities, including strategic partners and international networks (Una Europa, Universitas 21 and LERU).

State your interest in a scholarship in your motivation letter. Once we have received your application, we will notify you of any potential discounts available to you.
Application

Strong Bachelor students, who have completed their first year of study, as well as Master students are encouraged to apply. This course is of particular interest to students from many fields, including Economics, Finance, Business, Computer Science, Mathematics, Natural Science or Law. Also, students from other fields of study with a strong interest in the topic and Data Science who have a strong technical and analytical background are also welcome to apply. Basic knowledge of programming is not required, but desirable.

Please apply online on our registration form as soon as possible to avoid disappointment. We will carefully check your application and get back to you within seven days. For further information on the application process please visit https://www.summerschools.uzh.ch/apply-now

UZH International Summer Schools

International Sports Law

Legal Challenges in the Fight Against Doping

2 - 21 July 2023

Faculty of Law
in collaboration with Global Student Experience
Course Description

This on-campus Summer School offers unique insights into the legal context in which international sports organizations currently operate as well as into the limits of their autonomy. Participants will also explore the relevance of state law, more particularly of criminal law in sports-related matters. The focus is on one of the most heavily regulated matters in organised sport, namely the fight against doping.

The course will examine in particular the history of anti-doping, the stakeholders involved in anti-doping, the legislative and procedural framework of the sports organisations in the fight against doping, the role and the functioning of criminal and international law related to anti-doping and interdisciplinary aspects of anti-doping.

Participants will be able to put their knowledge into practice in the Moot Court designed specifically for this Summer School, allowing everyone to engage actively with a fictional case in the field of sports law and be judged by professionals.

Main Learnings

- Become acquainted with the (legal) specificities of organized sport
- Understand national and international regulatory frameworks
- Gain expertise related to the field of anti-doping law and practices as well as dispute resolution by internal tribunals and arbitration
- Build knowledge on and understand the relevance and functioning of criminal law
- Analyse the leading cases in the field of anti-doping
- Actively apply the above to disputes arising in the sports industry related to anti-doping

Teaching and Learning Methods

- Interactive Lectures – Engage with our lecturers and benefit from their expertise
- Podcasts – Watch pre-recorded sessions on demand
- Reading List – Get relevant reading material, case studies and background readings
- Tutorials and Q&A sessions – Engage directly with our teaching team
- Moot Court – Put your newly acquired theoretical knowledge into practice and engage actively with a fictional case in the field of sports law
- Group work – Interact with other students and work together in the Moot Court
- Consultation for your Moot Court plea – Get advice and feedback from distinguished experts on how to make a professional plea

Fees

The regular fee for this on-campus Summer School is CHF 3,450.

The fee includes:
- Tuition and application fee
- Accommodation
- Final certificate and transcript
- Classroom teaching
- An exciting social program that will foster your intercultural competence

Discounts

We offer generous discounts to students from UZH partner universities, including strategic partners and international networks.

Once we have received your application, we will notify you of any potential discounts available to you.
Application

This course is open to all Advanced Bachelor and Master students with a strong interest in the topic. Basic knowledge in legal studies is desirable, but not mandatory. Podcasts and a reading list will be provided before the start of the program to ensure that all students share a common level of knowledge.

Please apply online on our registration platform as soon as possible to avoid disappointment. We will carefully check your application and get back to you within seven days. For further information on the application process please visit www.summerschools.uzh.ch.
