 Programme Dates: Between June and July 2021 (varies by individual courses)
 Application Deadline: **Typically 1 May – refer to programme page for the deadlines**
 No. of Placements: Unlimited

COVID-19 related updates:

In Summer 2021, TAU will be adopting a hybrid format for the summer programme. Some courses in the programme may be offered on-site or online.

Due to the fluid situation of the COVID-19 pandemic and uncertainty regarding international travel in the months ahead, students are strongly encouraged to choose the online option for Summer 2021. For online options, students may apply for module mapping and transfer a maximum of 8 MCs (this is applicable only to online summer programmes 2021). Some Faculties/Schools (including School of Computing) will not approve module mapping for online courses. Please check with your home faculty’s Dean’s Office to determine if module mapping can be approved for online courses before applying to the partner university.

Students’ ability to travel to Israel for summer 2021 will be determined by the host country’s travel policies as well as the latest travel advice from Singapore authorities. In the event that Singapore authorities advise against non-essential travel to Israel for summer 2021, students will not be able to travel to Israel for their summer programmes.

Students who proceed with the physical (on-site) option acknowledge the risks associated. NUS will not be responsible for any lost deposits or expenses (including but not limited to programme/tuition fees, air tickets, housing deposits, meal plans and/or non-academic student fees) associated with travel disruptions. You are advised NOT to make any financial commitments particularly those which are non-refundable until you are certain that travel is possible. You will be fully responsible for any travel expenses, quarantine accommodation costs, COVID-19 tests or other costs related to the measures imposed at that point of time, both in Israel and Singapore.
