PROGRAMME DETAILS		
4	Academic Content	<p>Students will gain in-depth knowledge and practical skills, including utilizing popular BIM tools (e.g., Autodesk Revit) to create parametric models, explore collaborative workflows, and analyze building component properties through a collaborative team project. They will showcase their efforts in final presentations, engaging in direct discussions with BIM experts to refine their understanding and approach.</p> <p>Please refer to the programme’s website: https://oia.ntu.edu.tw/short-term-programs/courses/f078DEA4248c#section1</p> <p>The program provides students with 1+2 tracks of courses. "The BIM Application in Digital & Green Transformation" is mandatory for all students, and the other two subjects are selective: (1) Sustainability in construction. (2) Construction Management. Students can choose one of the two upon registration. Upon completing registration and paying the program fee, students will gain access to the online introductory courses starting in April 2025, ensuring they are well-prepared for the comprehensive in-person learning experience.</p> <p>Kindly note that the online introductory courses portion is likely NOT be recognised for unit transfer. It is the students’ responsibility to consult their respective home faculty’s Dean’s Offices on unit transfer matters.</p>
