Constructing
Search Statement

Reducing # of results, but high precision, likely more relevant

Unlike Google which is the web search engine,

Features of Google Scholar (GS) [1]:

- Search all scholarly literature from one convenient place
- Explore related works, citations, authors, and publications
- Locate the complete document through your library or on the web
- Keep up with recent developments in any area of research
- Check who's citing your publications, create a public author profile

Google Scholar

Multidisciplinary

Sources:

- Academic publishers
- Professional societies
- Online repositories
- University repositories
- Other web sites

Types:

- Articles
- Conference papers
- Theses
- Academic Books
- Pre-prints
- Abstracts
- Technical reports
- Other scholarly literature
- Court opinions
- Patents

NUS National University of Singapore NUS Libraries

Update frequency:

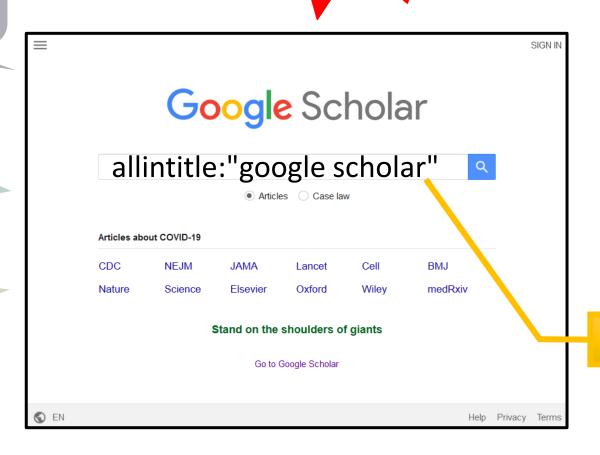

- Several times a week
- Updates to existing records take
 6-9 months to a year or longer

No indication of specific:

- Publishers
- Journals

Author Profile:

refer to Research Impact

ScholarBank@NUS

is indexed by GS

- Chrome
- Firefox

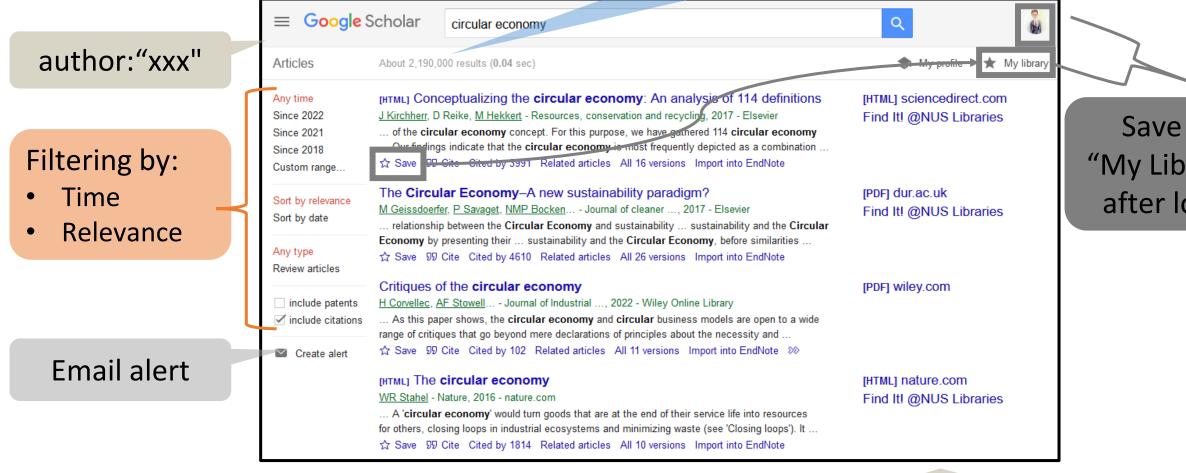

"To check current coverage of a specific source in Google Scholar, search for a sample of their article titles in quotes."

Although there are many results, only up to 1,000 results are displayed

Save to "My Library" after login

Inclusion & Corrections

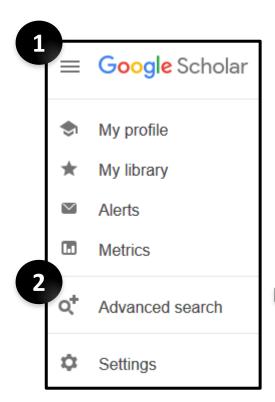

Cite

Citation counts

Citation export to Zotero/EndNote/Mendeley
[Steps: GS Settings > Search results > Bibliography manager > Show links to import citations into...]

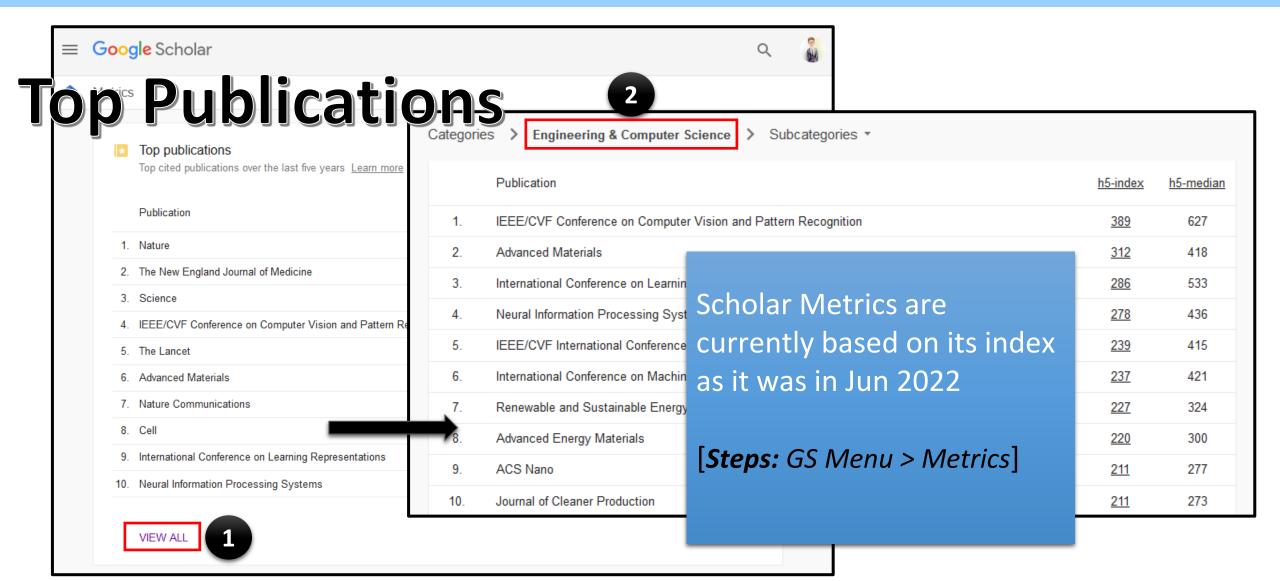

×	Advand	ced search Q
	Find articles with all of the words with the exact phrase with at least one of the words without the words where my words occur	anywhere in the article in the title of the article
	Return articles authored by Return articles published in Return articles dated between	e.g., "PJ Hayes" or McCarthy e.g., J Biol Chem or Nature ———————————————————————————————————

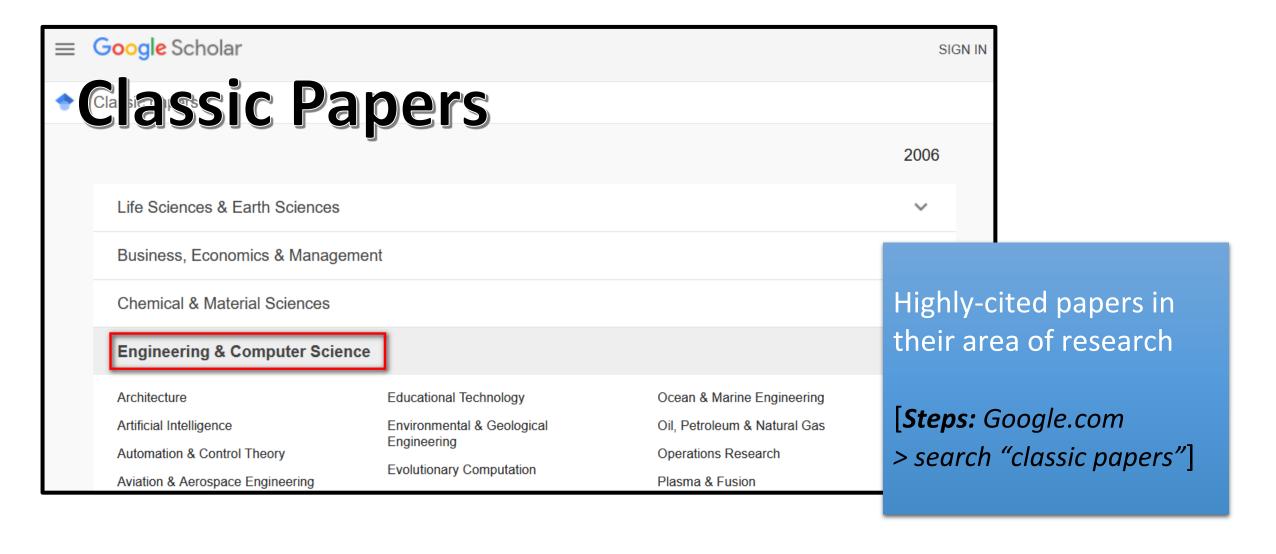

Top 100 publications in several languages in a subject area | 5 years h-index and h-median

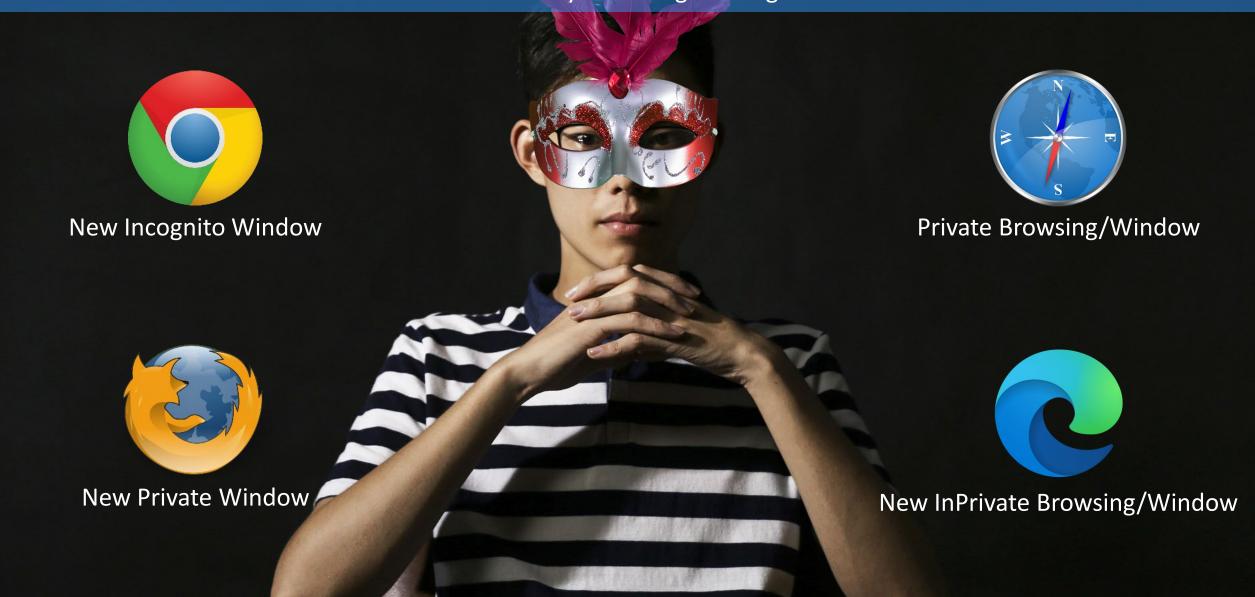

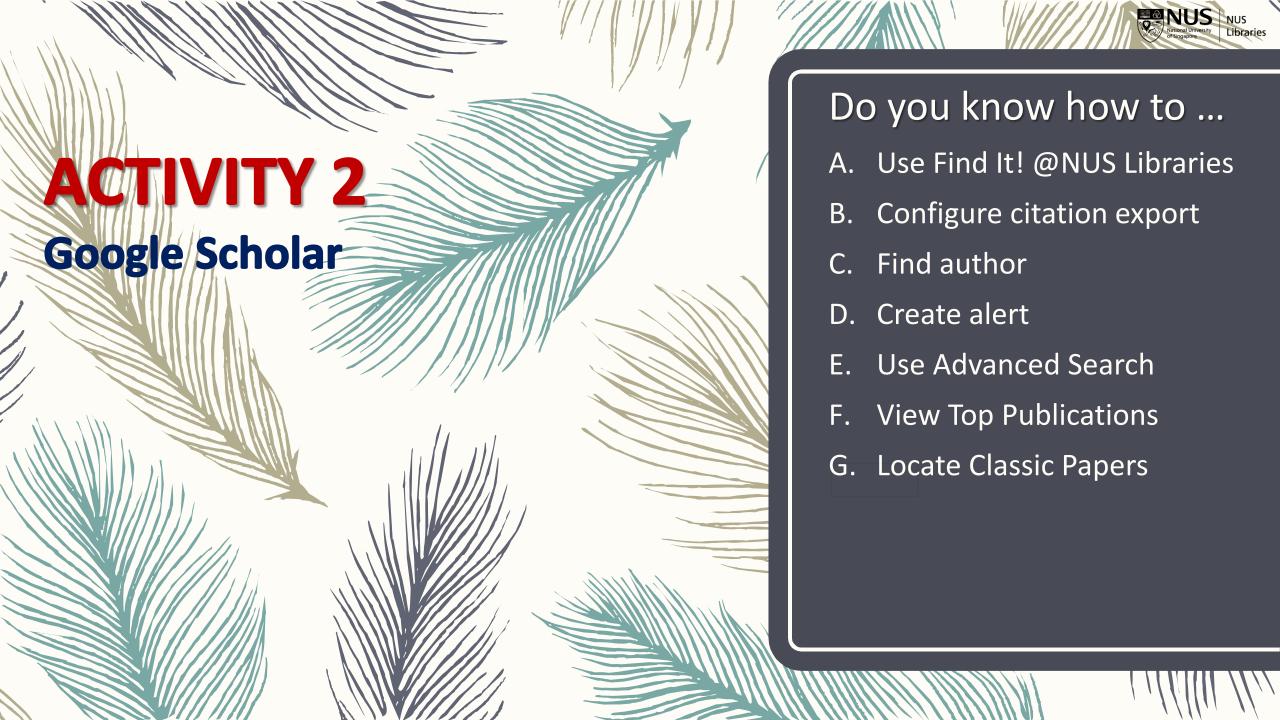

10 most-cited papers in a subject area have stood the test of time | published 2006 based on index May 2017

- Similar images
- Sites that include the image
- Other sizes of the image you searched for

Researcher Unbound Digital Badges

Showcase the knowledge and skills you have acquired in your emails, online CVs, LinkedIn and other social media platforms. Earn Researcher Unbound Badges by attending workshops and answering a quiz for each workshop attended.

Each domain in the Research Skills Framework (RSF) has its own unique set of Basic, Intermediate and Advanced badges, depending on the number of workshops in that domain attended.

How to earn badges?

Basic Badge

Attend at least 2
workshops within the
same domain and
answer quiz questions
correctly

Intermediate Badge

Attend at least 5
workshops within the
same domain and
answer quiz questions
correctly

Advanced Badge

Attend at least 7
workshops within the
same domain and
answer quiz questions
correctly

Meta-Badges

Coming Soon! Meta-Badges will be available for superachievers who get at least a Basic badge in all 7 RSF domains!

Take the quiz and earn a digital badge
