Research Experience (REx) Upgrade to Undergraduate Research Opportunities Programme (UROP) Course

REx Fellow Self-Evaluation Form

*Please submit this form to **PVO UG Research Coordinating Team**.*

Supervisor's name	
REx Fellow's name	
REx-upgraded UROP course code/title	
Semester and AY	

1. Please briefly describe the research project (with reference to your grant proposal).

2. REx Fellows are required to draft a joint or single authored working paper or poster presentation that could, in principle, lead to submission to a journal, edited book, or conference. The paper or poster could be a derivative of the UROP project report. REx Fellows are expected to spend part of their UROPS project research workload hours (not more than 30 hours) to generate research findings to complete this task. They may be invited to present the working papers or posters at workshops or REx events. Working papers or abstracts may also be invited for publication in the REx *Research Connections* digest, and working posters may be invited for presentation at an internal poster session or UG research symposium or conference. REx Fellows may propose to present their research work in formats other than a paper or poster (e.g. photo essay, documentary film), if their supervisor approves.

Please briefly describe your research output/deliverable.

3. REx Fellows must complete workshop component requirements of the REx upgrade to the UROP course. Please indicate which workshops were attended:

REx workshop participation: Minimum of 2 Core and 3 Elective workshops

Core	Elective

Satisfactorily completed: **Yes**   **No**

REx Fellow's signature: _____   Supervisor's signature: _____
