Transfer Administrator Role (via Administrator account)

Manage Users under Account Settings

It is recommended that the administrator should transfer the admin role to the next responsible person in advance to avoid any potential disruption in activities with customers.

To add users, the Administrator must first create a role.

After assigning another user to be the Administrator, the existing Administrator needs to assign at least one role to him/herself before logging out of the Administrator role.

Assign a Role	Click	Assign	Cancel
Select a new role for your account. Assign a role Name Description General-TEST			
Assign a New Administrator WARNING: You are about to transfer your administrator role to Mina Ho. After you assign the administrator role to another user, you will be logged out of your account.			
	A warning message will be displayed after clicking Assign. Once you click OK, you will be logged out of the Admin role.	OK Canc	cel

* The new administrator will receive an email notification upon transferring of account admin to him/her.
