Qualifiers for the List of items collected for recycling/ reusing in NUS campus

1. Updated as of February 2022.
2. This list is non-exhaustive and specific to NUS. It is compiled in consideration of available location based data and feedback from our industry partner ALBA-W&H.
3. NUS endeavours ensure the downstream processes of materials collected within the campus is credible and sustainable. The intention of working closely with industry players and engaging our users accordingly based on their feedback is to increase supply chain transparency in the area of the downstream recycling processes.
